1ST SESSION

H. R. 29

To amend the Public Health Service Act to improve the provision of medical services to the homeless.

IN THE HOUSE OF REPRESENTATIVES

JANUARY 3, 2013

Ms. VELÁZQUEZ introduced the following bill; which was referred to the Committee on Energy and Commerce

A BILL

To amend the Public Health Service Act to improve the provision of medical services to the homeless.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 SECTION 1. SHORT TITLE.

4 This Act may be cited as the “Mobile Medical Home-
5 less Health Improvement Act of 2013”.

6 SEC. 2. FINDINGS.

7 Congress finds the following:

8 (1) The number of people experiencing home-
9 lessness on a single night increased by 1.1 percent
10 from 643,067 in January 2009 to 649,917 in Janu-

1 ary 2010. California, New York, and Florida ac-
2 ounted for 40 percent of the total homeless popu-
3 lation.

4 (2) A total of 79,446 family households, includ-
5 ing 241,951 persons in families, were homeless as of
6 January 2010. Since 2009, the number of homeless
7 families increased 1.2 percent, and the number of
8 homeless persons in families increased 1.6 percent.

9 (3) The number of people who were chronically
10 homeless, persons with severe disabilities and long-
11 term homeless histories, decreased 1 percent between
12 2009 and 2010, from 110,917 to 109,812.

13 (4) Out of those homeless individuals in a shel-
14 ter, 34.7 percent suffered from substance abuse and
15 26.2 percent had a serious mental illness.

16 (5) Mobile medical health care services can ef-
17 fectively reach homeless populations and provide pri-
18 mary care, screenings, dental care, medications, be-
19 havioral health care, immunizations, lab tests, case
20 management, benefits assistance and assessments,
21 and triage.

22 (6) Mobile medical health care services can pro-
23 vide health care to homeless adults and children in
24 urban, rural, and suburban areas.

1 (7) The average cost of a visit to a provider of
2 mobile medical health care services is significantly
3 below the average cost of an emergency department
4 visit. Visiting a mobile medical health care service
5 instead of the emergency department can result in
6 a cost savings of more than \$800 per visit.

7 **SEC. 3. IMPROVING ACCESS OF HOMELESS INDIVIDUALS**
8 **TO MEDICAL SERVICES.**

9 Subpart I of Part D of title III of the Public Health
